Experience

July 2017 – Present

Lead Instructor DevMountain

- Lead Instructor for DevMountain's online, after-hours and Basecamp courses.
- Created Basecamp, a pre-course to DevMountain that sets students up for success during their time with us.
- Responsible for content creation, mentor to student interactions and overall student experience.
- Teaching students HTML, CSS, ES6, React, Redux, Node/Express, Massive and PostgreSQL along with several other technologies.

May 2016 – July 2017

Front End Developer/UI-UX Designer Fashionphile

- Tasked with complete redesign of website and company eBay site.
- Designed, developed and implemented aesthetically please yet functional designs throughout the site.
- Designed and implemented email campaign that resulted in the largest revenue non-holiday-quarter up to that point.
- Used PHP/Laravel, HTML, SCSS and JavaScript.

September 2015 – May 2016

Software Engineer 1-800 Contacts

- Developed site for third party clients using the Demandware platform.
- Worked in pairs to complete redesign of website using React and Typescript.
- Updated and maintained companies classic site while the redesign progressed.

June 2015 – September 2015

Front End Developer Overstock

- Updated company website using HTML, CSS & JavaScript.
- Worked with design team to implement daily changes to user interface.
- Was sole developer on Ink & Ivy page, which quickly became one of the most popular pages on the site. Used HTML, CSS and JavaScript to complete the project.
